MESSAGE FROM THE GMD

MASE Construction Limited values integrity; our practices are honest; our conduct is legal and ethical. Although we are inspired by a fair return on our investment, we are always striving for a win-win business relationship with customers who share our craving to design and build memorial structure that add value to the communities.

To this end, we are committed to effectively communicate to our clients the benefits of Mase Construction design-build process, and construction methodology. Our employees are our most important resource in achieving our mission.

At Mase Construction we focus on recruiting, training and retaining employees with a special kind of skill set required to maintain a dynamic corporate culture driven by the values of quality, innovation and safety. We ensure this pathway will lead to excellence, to innovation, to growth that will allow both our employees and our clients to realize their aspirations at least and a lot more.

PROFESSIONAL CAPACITY

MASE Construction Limited is staffed by qualified engineers, project managers, and skilled technical personnel. As a COREN-certified company, we adhere strictly to engineering regulations, industry codes, and international best practices.

Health, Safety & Environment (HSE)

- The company maintains a strong Health, Safety, and Environmental Management System to ensure:•Safe working environments on all project sites
- Compliance with statutory safety regulations
- Minimization of environmental impact
- Continuous safety training for staff and contractors

Quality Assurance

MASE Construction Limited applies strict quality control measures at every stage of project execution. Materials, workmanship, and processes are monitored to ensure projects meet required specifications, standards, and client expectations.

OUR PARTNERS & KEY BRANDS

We collaborate with trusted partners and utilize leading global brands to deliver quality, innovation, and excellence across our projects.

OUR TEAM

Dr. Michael Ekwemalor is a distinguished entrepreneur, founder and the Group Managing Director / CEO of Mase Construction Limited, a premier engineering, procurement, and construction (EPC) firm recognized for its innovative solutions and commitment to quality. With over 18 years of extensive experience in the industry. Michael has established a solid reputation as a leader in the field.

He is certified in Civil Engineering from the Royal Institute for Chartered Engineers (RICE, USA), and endorsed by the Global Engineering Standard Organisation (GESO). His professional affiliations include membership in the Engineering Council and the High Authority Council of Arab Engineers, underscoring his commitment to the highest standards of engineering practice.

An alumnus of the prestigious University of Oxford, Dr. Ekwemalor exemplifies a dedication to excellence and possesses a profound depth of knowledge that informs his leadership and strategic direction at Mase Construction Limited.

MICHAEL EKWEMALOR

ENGR, MBA, PhD

GROUP MANAGING DIRECTOR / CEO

DR. ABDULKADIR NUWA
Executive Director, Business Development

A Business and Strategy expert, a scholar who had his tertiary education across various institutions spanning over 25 years. An Alumnus of Ahmadu Bello University, Zaria.

He is also an Educational and Management consultant with a range of clientele across public and private sectors. With multidisciplinary backgrounds covering International Relations, Political science, Policy, Development, Law, Business Administration (Human Resources) as arsenals for multitasking and prowess for midwifing a given project.

As the Business & Strategy expert, he plays an active role in coordinating activities of the Business and Strategy Division. He also recognized Globally for his strategies and Human Resources skills. He is married with children.

MAYOWA OSHIGA, ACA
Director, Finance

Mayowa Oshiga is a seasoned Chartered Accountant and finance professional with over 23 years of professional experience in financial management, accounting, corporate finance, and business advisory. A graduate of the University of Lagos and a qualified Chartered Accountant, Mayowa brings strong financial expertise and commercial insight to the organisation, with a focus on sound financial governance, accountability, strategic financial planning, and sustainable business growth. Over the course of his career, he has developed extensive experience in managing financial operations, financial reporting, budgeting, cost management, financial analysis, internal controls, and compliance. His ability to combine technical accounting knowledge with practical business understanding enables him to provide effective financial guidance that supports informed management and investment decisions. As Director, Finance, Mayowa provides strategic oversight of the organisation's financial operations, ensuring prudent financial management, effective resource allocation, strong internal controls, and compliance with applicable financial and regulatory requirements.

He works closely with management and other business functions to align financial strategy with organisational objectives, strengthen operational efficiency, manage financial risks, and support long-term value creation. His professional approach is anchored on integrity, financial discipline, transparency, accountability, and excellence, making him a valuable part of the organisation's leadership team. 23+ Years of Experience | Chartered Accounting | Financial Management | Corporate Finance | Strategy | Governance & Compliance.

ARC. JOHNSON OBOH, ARCON, NIA
Director, Architecture & Operations

Johnson Oboh is a seasoned Architect and Director of Architecture & Operations with 28 years of professional experience in architectural design, project management, construction documentation, consultancy coordination, and contract administration.

He brings extensive experience in the conceptualization, development, and delivery of innovative, functional, and commercially viable architectural solutions across a broad range of projects, including commercial, residential, industrial, landscape, interior, refurbishment, and urban renewal developments.

Throughout his career, Johnson has demonstrated a strong commitment to understanding client requirements and translating them into creative, practical, sustainable, and workable design solutions. His approach combines architectural creativity with technical precision, project coordination, construction knowledge, and a clear understanding of operational requirements.

His professional experience covers the full architectural project lifecycle, from project definition and conceptual design through design development, preparation of working drawings and construction details, tender documentation, consultant coordination, site supervision, and general contract administration.

Johnson has particular experience in urban renewal and the adaptive reuse of existing buildings, developing refurbishment and change-of-use strategies that enhance functionality, aesthetics, marketability, and asset value. His work in this area supports property owners and investors in repositioning existing assets for renewed commercial and economic opportunities.

He is proficient in the application of Computer-Aided Design (CAD), project management software, and Microsoft Excel, which support efficient design development, technical documentation, project coordination, monitoring, and delivery.

As Director of Architecture & Operations, Johnson provides strategic and technical leadership, ensuring that architectural vision is effectively translated into coordinated, practical, and deliverable projects. His wealth of experience enables him to bridge the critical gap between design, construction, operations, and client expectations.

His professional philosophy is anchored on innovation, functionality, integrity, attention to detail, client convenience, and excellence in project delivery.28 Years of Experience | Architecture | Design | Project Management | Operations | Urban Renewal

KENNETH EKWEMALOR, MSc, COREN
Director, Engineering

Engr. Kenneth Ekwemalor holds a Bachelor's degree in Civil Engineering from the esteemed Federal University of Technology, Owerri, where he graduated with second-class upper division honors. He further enhanced his expertise by obtaining a Master of Engineering in Environmental Systems Engineering from the University of Regina.

With a robust blend of management acumen and technical proficiency, Kenneth is skilled in essential software applications and structural design. He has successfully overseen health, environmental, safety, and quality (HESQ) programs at the Yara Belle Plaine Nitrogen Fertilizer Plant in Saskatchewan, Canada, ensuring that operational standards are consistently met. His responsibilities included spill reporting and evaluation, standardizing HESQ procedures, and securing the necessary permits for operations. Additionally, Kenneth conducted Life Cycle Assessments of the facility using GaBi software to evaluate environmental impacts.

Kenneth Ekwemalor's extensive experience and commitment to engineering excellence position him as a valuable asset in any engineering endeavor. Engr. Kenneth Ekwemalor brings this wealth of knowledge and expertise to Mase Group. He is married with children.

SARAH AUDU, MBA
General Manager

An innovative, result - oriented leader with over 18 years experience in Management. She provides strategic insight and effective communications skills. Sarah is a proactive leader who facilitates a team-based approach to increasing productivity and achieving consistent long-term growth. Sarah has previously worked with MTN and over her many years at the Management level, she has acquired cognate experience in Consultancy, Technology services, sales, and marketing before she ventured into the construction industry. She holds a Master's degree in Business Administration (MBA), a certificate from the United States Institute of Peace on Conflict Analysis. What endears her to us at Mase Contractors is her belief that ‘impossibility is not an option.

UMAIR NIZAM

PM Engineering And Infrastructure

Mr Umair Nizam is the PM, Engineering, with a B.tech (Civil Engr. ND. India), STAD (structural). He has amassed exceptional skills with over 15 years of experience in Civil Engineering and Construction Management in Nigeria and India. He possesses strong English speaking and writing skills including contract and specification with excellent planning, organisational and time management skills, with the ability to balance tasks and priorities to meet strict deadlines. He has experience managing projects from conception to completion and demonstrated experience leading teams to deliver projects on time and within budget.

FEMI ADESANYA, NIA, ARCON

Contract Manager

Femi Adesanya (BTech, Mtech); is a Bachelor of Technology in Architecture from the Federal University of Technology Minna and Master of Technology, Master of Environmental Design from the University of Lagos, with over fifteen years of experience in Interior design, AutoCAD, and Architectural design. He is a principal consultant and planning Professional, with varied expertise in Sustainable Design, Sketching, Residential Design, Rendering, Interior Architecture, Construction Management, and Construction Drawings.
